

No Animatronics No Bleeding Multiple Amputation

Trauma Trainer (MATT)® - NOAB-MATT

The TraumaFX® No Animatronics No Bleeding Multiple Amputation Trauma Trainer (MATT)® (NOAB-MATT) is a ruggedized trauma trainer that delivers high-fidelity simulations of lower-body blast injuries commonly caused by Improvised Explosive Devices (IEDs) and other explosive devices.

Key Benefits of TraumaFX® NOAB-MATT

- Features a double leg amputation for tourniquet training
- Realistic, resilient, and water resistant
- Specially formulated synthetic tissue with unparalleled realism and durability providing lifelike visual and tactile stimuli
- Crepitus to cue for crushed pelvis
- Can be used with a human actor
- Optional interchangeable priapism
- Scrotal avulsion
- Water Resistant
- Easy to clean and maintain

No Animatronics No Bleeding Packable Hemostatic (HEMO)

Trauma Trainer - NOAB-HEMO

The TraumaFX® No Animatronics No Bleeding Packable Hemostatic (HEMO) Trauma Trainer (NOAB-HEMO) is a ruggedized trauma trainer that delivers high-fidelity simulations of lower-body blast injuries commonly caused by Improvised Explosive Devices (IEDs) and other explosive devices.

Key Benefits of TraumaFX® NOAB-HEMO

- Single leg amputation with full left leg displaying a crush injury
- Deep wound at left inguinal crease for wound packing
- Realistic, resilient, and water resistant
- Specially formulated synthetic tissue with unparalleled realism and durability providing lifelike visual and tactile stimuli
- Crepitus to cue for crushed pelvis
- Can be used with a human actor
- Optional interchangeable priapism
- Scrotal avulsion
- Easy to clean and maintain

The NOAB-MATT and NOAB-HEMO can be paired with any TraumaFX® upper trainer to increase training capabilities
