

TraumaFX Injury Accessories

Injury accessories allow TraumaFX manikins to be augmented with different injuries, or to have injuries concealed for specific training applications. This allows instructors to vary wound presentation to provide a variety of different medical challenges and experiences on a single TraumaFX platform.

Prosthetic Leg Cover

KGS-TFX-PLC-1

- Covers amputation to conceal the injury
- Compatible with HEMO and CRL
- Secure fit allows patient to be carried, dragged or transported
- Easy installation

Burn Leg

KGS-TFX-HEMOBL-1

- Fits HEMO, CRL and EMITT models
- Visual and tactile representation of third-degree burns
- Secure fit allows patient to be carried, dragged or transported (*requires certified TraumaFX installation*)

Injured hands

KGS-TFX-APL-IH-1

- Includes both left and right hands
- Easy installation
